*The We Saved Our Members total is an estimate. When a member refinances a loan, we calculate what their finance charges would have been if they kept the loan to term using the rate, term, and balance. Then, we calculate the finance charges of the new loan using the new rate, term, and balance. Then, we subtract the new loan finance charge from the old loan finance charge to calculate the amount the member saved on finance charges. We collect this information for all refinanced loans each calendar year and then share this number with the members. Federally insured by the NCUA. Equal House Opportunity.

They may also be more secure than physical payment cards because of the technology they use to protect your account information.
