Mobile Wallets Now Available!

[What is a Mobile Wallet?](#)

Mobile Wallet lets you digitally store your debit or credit card on your compatible mobile device. Your mobile device can then access the wallet to complete purchases at participating locations rather than using the

physical plastic card. Payment is made by placing your phone or smartwatch near the compatible terminal at checkout. Mobile Wallets are available for all Midland Credit Union debit and credit cards.

When you complete a transaction using a mobile wallet:

- Your name, card number, and security code stay private.
- There is no need to pull out a plastic card when making purchases.
- Your debit or credit card numbers are never shared with merchants.
- The merchant receives only a transaction-specific code or “token” to process your payment.
